Find your center at the SISTERS COMMUNITY LABYRINTH
What is it?

A labyrinth is an ancient symbol — a circular, maze-like design — but unlike a traditional maze, a labyrinth has a single path that leads to the center. Walking through a labyrinth quiets the mind, slows the heart rate, promotes relaxation and helps people tap into their innate divinity and creative energy.

For individuals who are unable to physically walk the labyrinth, the path can be traced on a sculptural three-dimensional “finger” labyrinth located at the start of the path. Whether walking or tracing with a finger, experiencing a labyrinth promotes a sense of well-being and peaceful contemplation.

The Sisters Community Labyrinth is a gathering place for residents, visitors, individuals and groups. It is a permanent and accessible site, intended to promote health and wellness while providing a place for relaxation, meditation, reflection and, yes... fun!

Where is it?

The Sisters Community Labyrinth is located in the U.S. Forest Service East Portal, the triangle bordered by Route 242 (McKenzie Highway), Hwy 20 (Santiam Hwy) and West Hood Ave.
