Sacred Geometry reveals the harmonic patterns that underlie and create the world around us. The Mandala is the Sacred Circle, an ancient symbol of wholeness.

Through direct experience with Mandalas and Sacred Geometry, we can create a greater sense of understanding into the interconnectedness of all beings.

Join us for this full day immersion of creative expression. The morning segment will focus on Sacred Geometry and learning to draw two basic patterns. The afternoon will focus on the contemplative process of the Mandala.

Short guided meditations aligning with the significance of 11/11 will be offered throughout the day. No experience necessary, supplies are provided. Bring your own lunch.

Sponsored by the Liminal Space Society. For more information see [www.cerimonhouse.org](http://www.cerimonhouse.org).
